Composition

- Cisco
- Caterpillar inc
- Adobe Inc
- Nvidia corp
- 3M
- Hitachi LTD
- US Companies --> 57%
- Japan & France --> 11% each

Methodology

1. Positive ESG Rating: They must have a positive ESG rating on the ECPI scale (from F to EEE), with EEE being the highest grade. Companies involved in UN Global Compact violations receive a negative rating.

2. No Involvement in Weapons: They should not be engaged in the production of weapons.

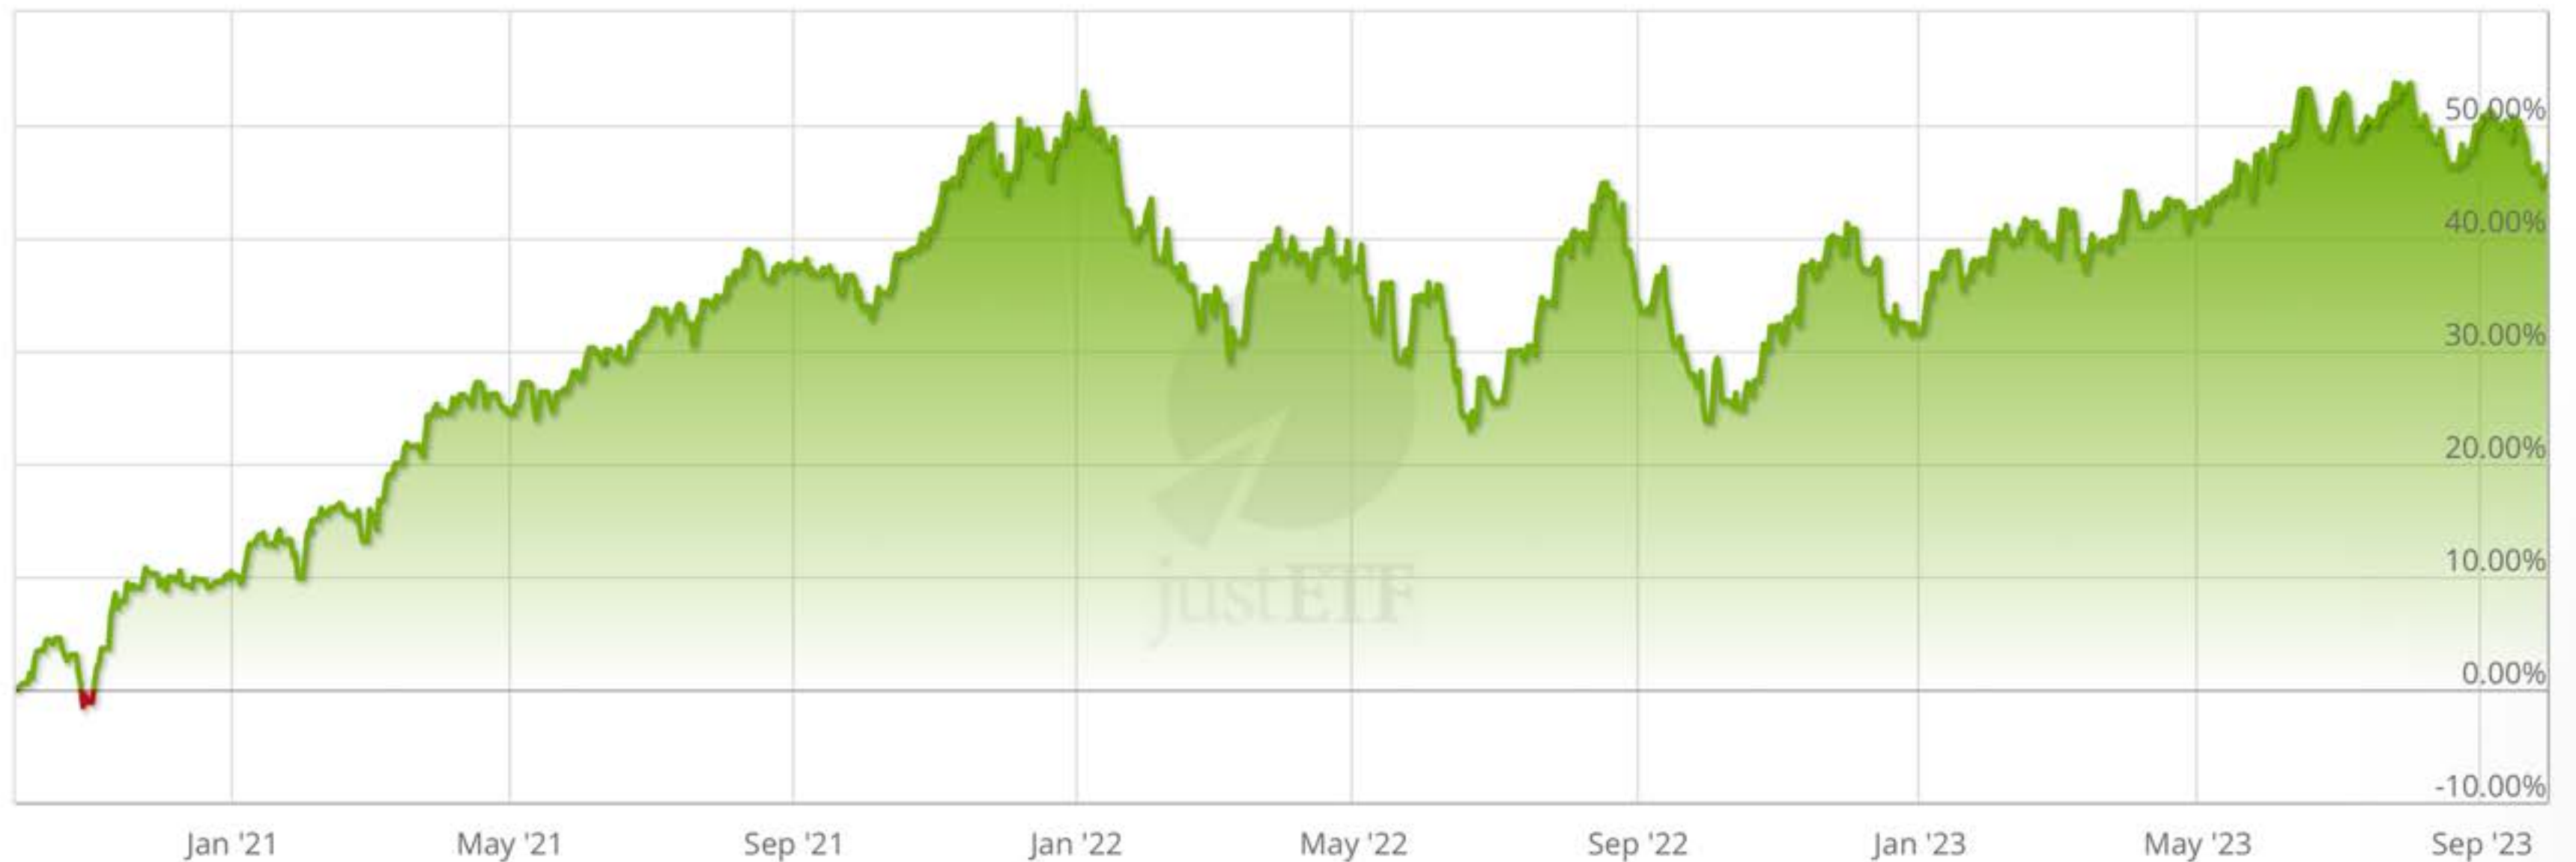

3. Limited Tobacco Revenue: They cannot generate a significant percentage of revenue from tobacco or tobacco-containing products.

4. No Thermal Coal or Unconventional Oil/Gas: Companies involved in thermal coal mining or unconventional oil and gas extraction are excluded if their revenues from these activities exceed a certain threshold.
