CRITICAL UNCERTAINTIES

CRITICAL UNCERTAINTIES	IMPORTANCE	UNCERTAINTY
1	Very low prices	will people continue to buy bad quality, or they will change for better ones with higher prices?
2	Factories in China, less working costs	Working conditions very discussed, will consumers tend to fair trade?
3	e-commerce, shopping only on platforms	Will consumers continue to buy online, or will they prefer to buy in a real store and try on products?
4	Worldwide delivery	Fashion industry impact on environment, will consumers continue to buy internationally, or will they become aware of the environmental impact and buy local?
5	Follow fashion trends	Fast fashion has a big environmental impact, will people continue to buy fast fashion, or will they tend to secondhand market?
6	technology	Does Shein has every security for cyber-attacks, software malfunctions, customers data?
